## **EGI SEA Demand Mapping Exercise Instructions**

STEP 1	Identify the relevant person(s) within your institution with knowledge on future spatial
CTED 2	development plans for your province/municipality, concerning industry and mining related
	development in particular.
	Request their input and participation in this exercise.  On the FOLGS AND Incident Annual Control of the C
STEP 2	Visit the EGI SEA Website at: <a href="https://egi.csir.co.za/?page_id=421">https://egi.csir.co.za/?page_id=421</a>
	Access your relevant provincial folder  Access your relevant provincial folder
	Access the 'Working Exercise Materials' folder
	Open the 'Maps' folder and download each of the three maps within:
	Category 1: Industrial Expansion
	Category 2: SEZ and IDZ     Category 2: Principle Admining Appears
	Category 3: Priority Mining Areas
	Return to 'Working Exercise Materials' folder
	Open the 'Attributes' folder and download the attributes table
	Return to 'Working Exercise Materials' folder
	Open the 'Feedback forms' folder and download each of the forms within:
	o Category 1: Industrial Expansion
	Category 2: SEZ and IDZ
. <del></del>	Category 3: Priority Mining Areas
STEP 3	Review each of the maps to determine whether the shaded cells are an accurate
	representation of spatial development plans in your province/municipality with regards to
	industrial expansion, SEZ and IDZ and or priority mining.
	Review the grid cells on each map in combination with the attributes table to determine
	whether the documents used by the EGI SEA Team to populate the maps are the best available
	documents.
STEP 4	Based on your knowledge of future developments plans in your province/municipality, identify
	what changes you would like to be made to each of the three maps i.e. which cells you would
	like to be changed from 'shaded to unshaded' or 'unshaded to shaded'.
STEP 5	Capture any proposed changes in the appropriate feedback forms. Therefore, if you would like
CTED 5.4	changes to be made to the Category 1 Map, then complete the Category 1 Feedback Form.
	Proposed changes to the Category 2 Map must be captured in the Category 2 Feedback Form,
	and changes to the Category 3 Map must be captured in the Category 3 Feedback Form.
STEP 5A	Each Feedback form is separated into two sections. Section 1 relates to cells INSIDE the
	corridor which must be changed from 'shaded to unshaded'. Please capture the grid cell
	reference number for the cell you would like to be 'unshaded' together with a comment, i.e. an
	explanation of why the cell must be unshaded.
STEP 5C	Section 2 of the Feedback Form concerns cells INSIDE the corridor which you are proposing to
	be changed from 'unshaded' to 'shaded'. Please capture the cell reference number for each
	proposed cell. In addition, please capture the sector and activity to which the cell relates
	(referring to the table at the start of Section 2).
	Section 3 of the Feedback Form concerns areas completely OUTSIDE the corridor extent only.
	Please identify areas (coordinates of area/nearest town to area) falling outside the corridors
	which could motivate shifting the corridors in support of these areas.
STEP 6	Capture your municipality or departmental contact details on the front cover of each Feedback
	Form.
	Please submit a maximum of one Feedback Form for each map per department/municipality.      The state of
STEP 7	<ul> <li>Submit completed Feedback Forms to Wisaal Osman at <u>wosman@csir.co.za</u> by 10<sup>th</sup> December</li> </ul>
	2014.
	As per STEP 3, please also submit any documents which you would like to be considered as part
	of the review that have not yet been included.
	<ul> <li>Contact Wisaal Osman at 021 888 2482/2432 if you have any questions regarding the exercise.</li> </ul>
